

Jungle Play Product Catalogue 2022 – www.jungleplay.com.au

Naturally inspired play sculptures

Jungle Play's range of art-for-play sculptures bring the beauty of nature to children's playspaces. This collection of oversized flora and fauna bring the minute details of nature into focus and create magical spaces for creative, imaginative play.

Designed in our Queensland studio and brought to life by artists and craftsmen, the sculptures are made with fastidious attention to detail, transforming any space into a children's nature wonderland.

The range includes a friendly Ladybird, Snail, Caterpillar, Frog, Daisies, Tulips, Pumpkins, Watermelons and more. It also features dinosaurs and turtles to climb on, Hollow Logs to crawl through, ultra-realistic Fossil Sandpit inserts to dig and discover, Dragonfly Slides, Gum Leaf Play Pods, Egg Pods, Tree Cubbies, Mushroom Cubbies, traditional timber Playhouses, and even a super cute Turtle Dome Climber.

These sculptures can be combined in myriad configurations to create engaging and colourful indoor or outdoor play spaces that celebrate and encourage appreciation of nature. Each piece is made from fibreglass and finished in polyurethane marine-grade two-pack paint and a protective, graffiti-proof varnish. Our products are designed and built for years of play.

For the past decade, Jungle Play (formerly Art Dinouveau) natural play sculptures have inspired and delighted children of all ages. Our work features in countless play spaces in public parks, retail precincts, kindergartens and childcare centres, schools, and hospitals throughout Australia and around the world.

Bee

Our cheerful bee is sure to bee a favourite with children and parents alike. Recreating the tiniest details of arguably the most important insect on planet Earth, our cheerful Bee play sculpture encourages children to appreciate the magnificence of bees in larger-than-life form.

The Bee can be painted to depict any bee species showing similar sculptural form and thus offers an opportunity for educating children regarding their local species. The Bee is designed for climbing, riding and jumping and will easily accommodate a few children at once.

The Bees are available in two sizes - 1.2m for play applications and a 30cm version for decorative purposes (as shown in the Honey Shop image).

Measurements:

Length: 1180mm Width: 1055mm Height: 511mm

GET CAD FILE V

Caterpillar

Our larger-than-life Caterpillar play sculpture is both a seat and a climber for toddlers. Available in three standard finishes: the Wanderer or Monarch butterfly larvae, the Witjuti (Witchetty)

Grub or even the elusive (imaginary) Rainbow caterpillar, this colourful creature feature will enliven any playspace.

The Caterpillar is a colourful and engaging play sculpture suitable for children of all ages and all abilities. It encourages many modes of play sitting, climbing, riding, jumping, balancing, toddling and more.

Measurements:

Length: 2050mm Width: 400mm Height: 430mm

GET CAD FILE V

Snail

Our friendly, smiling Snail sculpture is especially popular among babies and young children. Featuring a perfect Fibonacci-spiral striped shell, generous neck seat and handlebar eyes, the Snail offers children a (slow) ride to any imagined destination.

Perfect for nature-based play environments, our Snail adds a warm, welcoming face to any playspace.

Measurements:

Length: 1280mm Width: 440mm Height: 510mm

Frog

Designed for sitting, riding and even leaping over, our giant Frog sculptural seat is a welcome character in any playspace.

Painted to depict the renowned Green and Golden Bell frog in the images shown, the sculpture can also be painted to reflect two other well-known native Australian species – the Striped Marsh Frog and Growling Grass Frog – or any other frog species with a similar form.

Measurements:

Length: 1000mm Width: 860mm Height: 420mm

GET CAD FILE ▼

Ladybird

Our super cute Ladybird sculpture is a bright and happy addition to any play environment. Considered a talisman of luck, these little creatures are also known as the ladybug or lady beetle and children everywhere find them fascinating. Group a few of these together in a playspace to create your very own 'loveliness' of ladybirds.

The ladybird sculpture works brilliantly with our caterpillar, bee, dragonfly slide, mushroom seats, and tomato, watermelon and pumpkin sculptures to create a vegetable patch playspace for young children.

Measurements:

Length: 1000mm Width: 730mm Height: 540mm

GET CAD FILE V

Tortoise

Our lumbering land Tortoise is a charismatic character for children to befriend. Perfect for climbing, riding, and jumping, our friendly Tortoise will happily host a few children at once. It features a gnarly textural form that encourages sensory exploration and works well indoors or outside.

Measurements:

Length: 1350mm Width: 1100mm Height: 595mm

GET CAD FILE ▼

Tomato

Our plump, juicy heirloom Tomato sculpture offers children opportunities for climbing, sitting, balancing and jumping.

Also a colourful and comfortable seat for parents, the tomato is beautifully hand-painted to resemble tomatoes in varying states of ripening and are best used in groups.

Pair these together with our pumpkins and watermelons, a caterpillar, ladybird and a bee for the perfect vegetable-garden themed playspace for toddlers.

Measurements:

Length: 670mm Width: 670mm Height: 420mm

GET CAD FILE V

Pumpkin

Our oversized Pumpkin sculptures are perfect for sitting, climbing and jumping. They make a very comfy seat for adults too.

Hand-painted in either dark green with spots or traditional mottled orange, these play items come to life when used together with our other oversized fruit, vegetables, and flowers.

Add in a giant Snail, Caterpillar, Ladybird or Bee to create a delightful vegetable garden playspace.

Measurements:

Length: 620mm Width: 620mm Height: 360mm

GET CAD FILE ▼

Watermelon

Measurements:

Our larger-than-life Watermelon sculptures can be used for sitting, climbing and jumping.

These unique play sculptures brighten any playspace and work best when used together with our other oversized fruit, vegetables, and mushroom seats.

Lotus

Our gorgeous Lotus Lily seat may be used as playful seat or stepper. Great for sitting, climbing, jumping and more, the Lotus lilies work best positioned together in groups of pink and blue and surrounded by soft-fall blue rubber to depict water. Add in a few soft-fall lily pads, giant reeds (available on request) and perhaps a Frog or two for optimum fun.

Measurements:

Length: 660mm Width: 660mm Height: 400mm

GET CAD FILE ▼

Paper Daisy Stools

Our whimsical paper daisy stools work best clustered in groups to create a quirky, colourful seating area. These flowers make perfect seats for children as well as a helpful prop for babies and toddlers learning to stand and toddle. These wildflowers have a fully sculpted underside (as shown) sure to delight inquisitive minds spending time at floor level.

Available in three colours – purple, white and yellow – these will sprinkle a little fairy magic into any indoor or outdoor playspace.

Measurements:

Width: 225mm Length: 225mm Height: 355mm

GET CAD FILE ▼

Wildflower Stools and Steppers

Our Wildflower stools will infuse a colourful, happy vibe into any play environment. Shown here in a shimmery, irridescent rainbow finish, these were painted for a playspace featuring our rainbow Caterpillar. They can be painted any colours (upon request) to match the scheme of your playspace.

These stools can be used as seats for adult and children, or steppers for adventurous young children while also offering babies and toddlers the opportunity to pull themselves up, balance, stand and shuffle around the petals. The sculptured petals on the underside are a bonus feature best appreciated by small, floordwelling crawling folk.

Measurements:

Height: 400mm (inc flooring allowance)

Width: 270mm round Baseplate: 255mm x 255mm

Giant Daisies

Our Giant Daisies add vibrant colour and create a sense of wonder for children in any play environment. They can be customised to any height and painted any colour but come standard in yellow, purple, red, pink and blue. Available freestanding or wall-mounted for installation with a painted stem.

Measurements:

Length: 560mm Width: 600mm Depth: 200mm Height: Custom

Toadstool Table and Chairs

The toadstool or mushroom table and chair sets will sprinkle a little fairy magic into any playspace. Available in classic red and white (or muted beige tones akin to natural mushrooms or blue upon request), these delightful sets provide a functional and durable picnic or activity table suitable for all ages and play environments. The toadstool seats may also be utilised as standalone seats as shown (right) inside our Treehouse cubby.

Measurements:

Table

Length: 890mm Width: 890mm Height: 615mm

Chair

Width: 260mm Height: 375mm

Mushroom Playhouse

Our magical Mushroom Playhouse is a popular choice with designers as it facilitates imaginative play and offers children and adults alike a quiet and cosy nook for reading and storytelling.

The interior space features bracket fungi seating, a massive 1.8m diameter interior floor space and two metres of head height inside allowing both children and their carers the opportunity to experience the magic.

Suitable for use in all playspaces, our Mushroom Playhouse works best with the Giant Toadstool sculptures and Toadstool Table Set.

Measurements:

Length: 2275mm Width: 2259mm Height: 1950mm

Giant Toadstools

Our towering Giant Toadstools or Mushrooms create a magical sense of wonder in any play environment. Suitable for both indoor and outdoor use, they are available in the classic red and white spotted toadstool or in more muted natural tones akin to edible mushrooms.

Two sizes are available - 2.3m and 2.6m high both with a 1.5m diameter cap. Positioned together in pairs, these sculptures create a spectacular entry or central feature and will provide some shade when used in an exterior playspace. As with all of our items, these can be painted to spec and even be made to glow in the dark.

Measurements:

Length: 1500mm Width: 1500mm Height 1: 2300mm Height 2: 2600mm

Gumnut Chairs

Our Gumnut chairs are a favourite with adults and children alike. Available in two sizes, the child-sized version is suitable for children of all ages as a seat while the adult sized version doubles as a comfortable seat for adults and a climber for children. These work best in a play space with our Gum Leaf Park Benches, Gum Blossom Stools and of course, the Gum Leaf Pod House to create a uniquely-Australian bush fairy garden playspace.

Measurements:

Adult

Length: 800mm Width: 800mm Height: 970mm

Child

Length: 500mm Width: 500mm Height: 580mm

Gum Blossom Stools

Our gorgeous flowering gum blossom sculptures make very comfortable seats and may also be used for climbing and jumping. They are available in warm golden yellow and dark pink to reflect the seasonal blossoms of a variety of Australian flowering gum species. Adding colour and whimsy to any playspace, these seats are hero pieces on their own but work best when placed together with our Gum Leaf Seats, Gum Leaf Pod and Gum Nut Chairs to create a uniquely-Australian fairy garden. Available in adult and child sizes as shown in the bottom right image.

Measurements:

Adult

Length: 450 Width: 450

Height: 500 (inc 50mm floor allowance)

Child

Length: 300mm Width: 300mm

Height: 350mm(inc 50mm floor allowance)

Gum Leaf Seats

Our botanically-inspired Gum Leaf Seats celebrate the magnificence of the Australian eucalypts. A giant gum leaf is elegantly curled to create a perfect, ergonomic seat that is both beautiful and comfortable.

The adult-size leaf seat is 2.6m long and designed to accommodate four adults or six children. The child-sized seat is 1.5m long and will comfortably seat up to four children.

Each leaf seat is hand painted to reflect the varying colours found in nature ranging from eucalypt green to mottled autumnal tones and is suitable for installation in playspaces, childcare facilities, retail environments and domestic gardens.

Measurements Adult:

Length: 2560mm Width: 800mm Height: 900mm

Measurements Child:

Length: 1550mm Width: 550mm Height: 595mm

Gum Leaf Pod

Our Gum Leaf Pod is a cubby like no other. Each Pod is a unique, hand-painted work of botanical art guaranteed to inspire and delight one and all.

A firm favourite among landscape architects, our Gum Leaf Pod was inspired by the acclaimed Snuggle Pot and Cuddle Pie books written by Australian author, May Gibbs. Reminiscent of the gum nut babies' leaf cubby in the books, our Gum Leaf Pod is a spectacular, organically-formed sculpture offering opportunities for all kinds of play.

It features a fully-sculpted interior with large bench seats able to accommodate up to 10 children seated inside at once. This provides children and teachers with the perfect, shaded space for storytelling or reading. The Gum Leaf Pods work brilliantly used in playspaces together with our Gum Blossoms. Gum Leaf Seats and Gumnut Chairs.

Measurements:

Length: 2400mm Width: 2200mm Height: 2200mm

Treehouse

Inspired by a childhood spent in nature and a love of climbing trees, our Treehouse features numerous interactive play elements to keep children entertained for hours. There are two separate cubby spaces, a curved slide and a variety of sculptural features designed to inspire and amuse children of all ages.

The ground-level cubby is nestled in the hollowed-out trunk of the tree and has a gentle ethereal light emanating from the illuminated glow-worms hidden in the nooks and crannies of the tree. Bright orange fungi seating, a snoozing owl, frogs, geckos, and snails all await the intrepid toddler explorer.

A series of bright orange bracket fungi form a ladder at the side of the tree and invite children to climb to a second level open cubby space. Hidden in the foliage are comfy spots for children to play quietly in the canopy before sliding back to the ground via the curved slide wrapped around the trunk under the branches of the tree.

The Treehouse is made from heavy-duty fibreglass and finished in polyurethane paint and a resilient, graffiti-proof varnish. The Treehouse is suitable for children of all ages and suitable for inclusion in parks, schools, hospitals, kindergartens, childcare cen

Measurements:

Length: 2800mm Width: 2200mm Height: 2430mm

Our immensely popular Hollow Log can be used as a crawl tunnel and climber by children of all ages. This unique play item, reminiscent of a weathered, mossy, hollowed-out log you would find in a tropical rainforest, features vibrant orange bracket fungi, two leaf-tailed geckos, two snails and lots of glowing, green moss. An interior glow worm colony in glow paint is an optional extra.

It measures 1.56m long, 1.4m wide and 0.96m high and is suitable for use both indoors and outdoors in public playgrounds, childcare centres and retail playspaces.

Measurements:

Length: 1560mm Width: 1400mm Height: 960mm

Our sculptural Dragonfly Slide is challenging and exhilarating for toddlers and young children.

Featuring a gentle slide and a vibrant, shimmering, iridescent paint finish similar to a real dragonfly, it is guaranteed to generate a happy vibe and lots of smiles in any playspace.

Our Dragonfly slide works particularly well with our other colourful play sculptures in our collection such as the Ladybird, Bee. Frog and Caterpillar.

The Dragonfly Slide can also be painted to reflect any species of dragonfly local to the playspace offering children the opportunity to appreciate and learn about their local fauna.

Measurements:

Length: 2500mm Width: 1350mm Height: 880mm

Minmi Climbersaurus

Our gigantic snoozing Ankylosaur play sculpture, Minmi Climbersaurus, is both a climber and a crawl tunnel for children of all ages.

A larger-than-life version of the well-known Australian dinosaur, Minmi Paravertebra, this spectacular sculptural climber creates an awe-inspiring central feature for any prehistoricthemed playspace and is quaranteed to become a favourite go-to play destination for children.

This dinosaur is 3.6m long and 1.4m high offering a variety of climbing challenges. Our standard paint finish is featured in the images but our Minmi Climbersaurus can be painted to spec to suit the natural environment of your playspace.

Ask us about our newest addition, a baby Minmi Climbersaurus.

Measurements:

Length: 3600mm Width: 2200mm

Height: 1400mm

Turtle Climber

Our AMAZING Turtle Dome Climber is fun to play on and in! The wide entrance cut within the arched dome grants access to the 'belly of the beast', to create an immersive experience for children of all abilities. The giant head offers quirky charm and is anchored at ground level as an added option for climbing and jumping.

Our Turtle Climber can be painted in a variety of finishes both inside and out to suit your playspace theme. Set into blue rubber-crumb soft-fall, the turtle looks like it is swimming through the ocean, while brown soft-fall or green artificial grass turns it into a lumbering land tortoise.

Measurements:

Length: 3600mm Width: 3600mm Height: 1800mm

Our life-size Diprotodon Fossil in matrix is designed for use in a sandpit to recreate the archaeological dig experience for children.

The Diprotodon fossil is anatomically correct and was initially made for a museum. This fossil is one of our most popular play items and is sure to inspire the most discerning of budding palaeontologists.

Velociraptor Discovery Fossil

This faux fossil dig sandpit insert features an anatomically-correct Velociraptor fossil in matrix. Designed for burying beneath the sand in existing or new sandpits, this fossil will recreate the archaeological dig experience for even the most discerning budding palaeontologists. The fossil insert measures 1.9m long x 0.94m wide and around 0.2m high.

The Velociraptor Discovery Fossil is also available as a self-contained sandpit with sides. This version can be used both indoors and outdoors either on the floor or ground or positioned on a raised platform for all-abilities access.

Measurements (Insert / Self-contained)

Length: 1900mm / 1600mm Width: 940mm / 940mm Height: 200mm / 150mm

Dinosaur or Ant Nest Discovery Dig

This sandpit insert features a busy nest of elongated eggs in matrix and is credible as both a nest of ant eggs or prehistoric, fossilised dinosaur eggs.

This unique discovery dig adds an additional element of excitement and wonder to any new or existing sandpit while offering children the experience of discovering a giant nest of eggs (without the bites).

Designed for burying beneath the sand in existing or new sandpits, our egg nest panel insert is available with or without a steel fixing armature for easy installation.

Measurements:

Length: 100mm Width: 950mm Height: 200mm
